OUR SERVICES

Accounting and Reporting

Transactions are constantly evolving, and the application of accounting and reporting requirements is becoming more complex. Our team applies specialized accounting knowledge and expertise to help companies navigate complex accounting issues, regulatory changes, and financial reporting requirements. We help apply accounting standards to new and complex business transactions with guidance, interpretation, and audit-ready documentation to help alleviate additional stressors in your accounting function so you can focus on your key business goals.

- New accounting standard adoption (CECL, revenue recognition, leases, etc.)
- New product and new business model analysis
- M&A, joint ventures, and divestitures
- Industry-specific considerations
- Financial statement and disclosure assistance

Governance, Risk, and Controls

Our governance, risk, and control services help organizations develop efficient, effective processes to manage exposure to financial, operational, and regulatory risks. This proactive approach helps ensure your business is ready to address new risks as they arise without the cost and distraction of constantly fixing audit, compliance, or regulatory findings.

- Process and control design or improvements
- Comparison with leading practices
- SOX or FDICIA readiness and implementation
- Deficiency remediation
- Accounting process integration

Outsourced and Co-Sourced Internal Audits

Outsourcing or co-sourcing the internal audit function helps support talent needs and embeds outside expertise into your company's self-assessments. Our team has experience establishing internal audit functions, transitioning to outsourced or co-sourced models, supplementing internal teams in specific audit areas, and re-evaluating risk assessments and audit plans. We identify opportunities and provide industry knowledge in your internal audit functions so you can increase the value you provide to your stakeholders and be an insight-driven business partner.

- Outsourced internal audit
- Establishing or transitioning an internal audit function
- Supplement and support the internal audit team
- Risk assessment and planning
- Audit improvement, rationalization, and efficiency
