

VIRTUAL CIO/CISO

Our virtual CIO/CISO service is a cost-effective and flexible solution that can be tailored to your organization's specific needs and objectives.

A virtual CIO/CISO (vCIO) from Calvetti Ferguson provides organizations with access to expertise and guidance in IT and security governance and management.

A vCIO is typically focused in helping organizations optimize the value that they derive from their IT systems and processes while also ensuring alignment with business objectives, industry standards, and best practices, all the while reducing the exposure to risks.

WHAT CAN A VCIO HELP WITH?

- Budget management
- Business continuity & disaster recovery planning
